PROFESSIONAL PROFILE

IT audit and assurance professional with experience in technology risk assessment, IT and business control testing, audit documentation, and client-facing financial audit engagements. Additional background in banking, real estate transaction coordination, and digital marketing. Currently building business analysis, QA, and technology skills through i.c.stars Chicago and a team client project for Medline.

PROFESSIONAL EXPERIENCE

KPMG Poland | Consultant – IT Audit & Assurance | Dec 2021 – Aug 2024

- Analyzed IT-supported business processes and identified technology risks and potential control weaknesses across engagements in financial services and other industries.
- Tested business and IT controls, reviewed supporting evidence, and documented findings for senior audit team review.
- Prepared audit working papers and contributed to reports and presentations of findings; did not own senior-level remediation recommendations.
- Requested audit evidence directly from clients, participated in meetings, and followed up on documentation and control-related questions.
- Supported financial audit teams with data analysis using Microsoft Excel and KPMG Clara; assignments typically lasted approximately 3–9 months.

Keller Williams / HomeSmart | Real Estate Administrative & Marketing Coordinator | Oct 2024 – Apr 2026; occasional support since

- Supported documentation and coordination for more than 100 real estate transactions; managed 3–5 transaction workflows on busy days.
- Coordinated daily requests involving up to 7–8 agents; scheduled appointments, tracked deadlines, and managed follow-ups.
- Communicated with clients, attorneys, agents, and other transaction partners to resolve operational issues and obtain documents.
- Created a substantial volume of marketing collateral and social content using Canva and CapCut; worked with MLS, Excel, Word, and email.

Getin Noble Bank | Customer Service Advisor | Jun 2020 – Oct 2021

- Assisted customers with everyday banking transactions, including withdrawals, deposits, and account-related services.
- Explained banking products, resolved inquiries, and provided customer and operational support while following bank procedures.

TECHNOLOGY TRAINING & CLIENT PROJECT

i.c.stars Chicago | Technology Intern; Product & Business Analyst Lead | Aug–Dec 2026 (in progress)

- Contribute to Medline Operations Problem Navigator: requirements discussions, user stories, personas, workflow diagrams, application design, stakeholder communication, and presentations.
- Coordinate team meetings, priorities, task assignments, and deliverables; prepare QA artifacts including test cases and defect logs.
- Develop foundational skills in SQL, Python, GitHub, VS Code, Jira, Figma, and AI-assisted workflows; Medline application testing is planned.

ADDITIONAL QA EXPERIENCE

QA/QC Training (Ukraine; completed before Dec 2021) — Manually tested Ukrainian websites, identified defects, wrote several bug reports, and completed a final course testing project.

EDUCATION

SGH Warsaw School of Economics, Warsaw, Poland | Master's in Finance and Accounting, 2020–2022

The John Paul II Catholic University of Lublin, Poland | Master's in Marketing, 2019–2021; Master's in Economics, 2018–2020; Bachelor's in Economics, 2015–2018
